GOALS

- Provide a positive atmosphere and environment that promotes the learning, development, and improvement of baseball skills in order for each member of the club to be the best player he can be and reach his full potential**
- Use baseball as a tool to develop life skills that will help make them successful in their future careers and as citizens in their community**
- To be recognized and regarded as a community leader and set the example of how to operate a successful youth and high school club baseball program**
- Put our players in competitive situations that help develop character, courage, loyalty, and teamwork**
- Promote and focus on the importance of academics in preparing players for high school and college advancement**

VALUES

We value discipline, hard work and pride while emphasizing the importance of faith, family, academics, and baseball. We believe a major part of youth sports is the journey. Our teams build and promote good character, and play with great passion and energy. We expect proper sportsmanship for all coaches, players, and families involved in our organization.

THE NEXT LEVEL

Our ultimate goal is to help players reach their desired level of play and understand what it takes to get there. Our proven track record touts more than a 20 years of success educating players on skills on the field and traits off it to get noticed by the decision makers at the next level.

We would like to emphasize that as each year goes by there is more focus placed on athleticism (speed, strength, size, mobility), especially by college coaches in the recruiting process. Therefore, in order to give each of our players the best opportunity to succeed, We are focused on improving our performance training and making it a focal point moving forward.

EDUCATION

Simply being “good” isn’t enough. From teaching baseball fundamentals, to the importance of keeping high grades in the classroom, to choosing between collegiate and professional offers, our staff has the experience necessary to help you make the best decision for your future. We educate our players and their families on the recruiting process, and work side by side with our student athletes to find the best fit for them at the next level.

RESPECT

“There have been many changes in amateur baseball since 1998, but there is one thing that has not changed. The Prospects organization is still the standard that all clubs in St. Louis model their clubs after.” ADAM STAHL-SCOUT CLEVELAD INDIANS
